launched the "Virtual Ghiseul of payments" - project developed by triumviratul DotCommerce Romania - Softwin - Kondiment.

The portal is intended to be the interface for access to legal and natural persons to public administration by providing a $\underline{\text{quick}}$ way to pay debts to the state. Counter part in each institution will be managed and maintained by the institution, but they will be found grouped in this portal (www.ghiseul.ro).

"Virtual Ghiseul for payment" will have a major impact, due to increasing the number of holders of bank cards, a payment solution speed, ease of use, guaranteed the safety of transactions and availability 24 / 7 .

DotCommerce Romania considers that the implementation of the project

DotCommerce experience that Romania has accumulated a private market, where leader in processing transactions online, was a real help in designing a software easy to use and secure.

- PUBLICITATE -

The purpose and benefits of such a portal is to increase the flexibility of pay systems in the public administration, ensure a transparent total transactions made through the issuance of evidence of payment of legal and recognized the possibility of monitoring the status of operations, the possibility of interfacing with any processor pay online. providing standard interfaces

with payment systems

already exist to adapt more rapidly to the new solution, facilitating citizens' access to online payment solutions.

Exceeding the time cozilor endless, unnecessary wasted time, enjoying all the benefits payments online through this portal each card holder will be able to pay fees, taxes, the services, fines, without needing to move in front of the computer.

Using this method of paying taxes online is conditioned only an Internet connection, possession of an e-mail addresses and a credit card that allows payment in the electronic environment.

This accumulation of benefits brought in through citizen service project resulted in the company DotCommerce Romania to participate in the development of the portal "Ghiseul virtual payment", by developing a useful interface and easily accessible.

To use more fair and effective portal, we recommend you create a user account, which require operation very shortly. Will be recorded in the system (based on a user name and password of your choice) will have access to all information on the history and status of your transactions by each of the institutions within the portal.

The first service available within the portal is online payment of fines for traffic in Bucharest. In a short time several institutions, governmental authorities and organizations will join this system. Virtual counter payments to both institutions serves as centralized and decentralized.
